

The following list of Cities/Counties is known or believed to have requirements governing alarm equipment or response and is provided to SIAC by ADT as a courtesy.

This list may not be all inclusive of every jurisdiction that may have requirements or fully represent the specific requirement.

Contact the municipal agency responsible and/or the jurisdiction for more information.

City names may be listed multiple times if more than one requirement is listed.

State level requirements are listed at the top of each section of State Listings.

ADT assumes no responsibility for the accuracy of this data as it pertains to the obligations of the customer, monitoring company or installation company to be compliant with state or local laws.

This information is subject to updates and/or changes without notice. Please check back for updated information regularly.

This information is available at InsideADT: Ordinance Compliance or by contacting the ADT Jurisdictions team at ADTJurisdictions@adt.com.

Glossary

Term	Code	Definition
Agency		<ul style="list-style-type: none"> • Police, Fire, EMS or Patrol service dispatch center. • A dispatch center that takes notification calls regarding alarm and signal activations. • The agency may be a private company contracted by the jurisdiction to dispatch 911 and alarm notifications. • The agency may be the ones to create laws and policies for their area. • Rarely follow exact city, county or zip code boundaries. Often overlap other areas. • See also <i>jurisdiction</i>.
Agency Special Instructions		<ul style="list-style-type: none"> • Monitoring instructions from agencies/jurisdictions are laws or ordinances. • Displays in the form of an agency overflow in MM when the agency phone number is dialed. • They should be taken very seriously. • Contact jurisdictions project manager or team lead immediately if errors are found.
Alarm System Manual	ASM	<ul style="list-style-type: none"> • Installer required to provide customer with alarm system manual. • This is a best practice regardless of requirement.
Broadcast and File	BF BFC (COMM only) BFR (RESI only)	<ul style="list-style-type: none"> • ADT is permitted to notify police department of alarm activation. • Police department prioritizes or determines response, if any, based on situation. • Visual verification, multiple alarm points, or audio confirmation will usually result in police response. • Police may or may not respond to site based on other factors - known crime patterns, historical false alarm problems or officer availability. • Fines for excessive false alarm activations may occur. • Suspension of alarm response may occur. • Typically hold up and panic alarms are excluded from requirement.
Checklist: Customer Ed	CE	<ul style="list-style-type: none"> • Customer education checklist required. • Jurisdiction may require specific form. • Jurisdiction may require customer and installer signature. • This is the responsibility of the installer.

Term	Code	Definition
Checklist: Installer	CI	<ul style="list-style-type: none"> • Installation checklist required. • Jurisdiction may require specific form. • Jurisdiction may require customer and installer signature. • This is the responsibility of the installer.
Contracted Patrol	CP	<ul style="list-style-type: none"> • ADT contracts a patrol service to respond to burglar alarms in a verified response jurisdiction. • Sometimes ADT contracts patrol service to respond to burglar alarms in a broadcast and file jurisdiction. • ADT usually charges customers a monthly fee; however, in Fremont, CA customers are only charged if the patrol service responds to a false alarm. • See <i>Contracted Patrol</i> chart below.
ECV Required	ECV	<ul style="list-style-type: none"> • Enhanced Call Verification. • Second or supplemental calls are required to be made to key holders not located at the site. • Special requests to supersede this procedure are not permitted where mandated by police ordinance or municipal policy. • See also <i>premises verification required</i>.
Hardware Restrictions	HR HRU (TBD)	<ul style="list-style-type: none"> • May limit the types of hardware that can be installed or operated at the protected site. • These restrictions can apply to new installations, systems that undergo upgrades, or may require the disabling of a device within an established period of time from adoption of the ordinance. • Examples: Single action panic or hold up devices, control panels may be required to be CP-01 compliant.
Jurisdiction		<ul style="list-style-type: none"> • Government entity which establishes laws and policies for citizens in their area. • Jurisdiction may also be the agency. • Jurisdiction may not have an association with agency.
Multiple Zones Required	MZ	<ul style="list-style-type: none"> • Multiple zones required is a form of verified response. • Usually an interior and an exterior or at least two different burglar alarm must be activated at the premises before the police will respond. • Sometimes ADT is not authorized to notify the police of an alarm unless two or more different zones are activated at the premises.
Notify	N	<ul style="list-style-type: none"> • Call agency and inform them of alarm.

Term	Code	Definition
Permit		<ul style="list-style-type: none"> • Issued by local governments, PD or FD giving customer permission to have an alarm system. • In some jurisdictions the customer is required to obtain their permit. • In some jurisdictions installing company is required to obtain a permit on behalf of customer. • In some jurisdictions monitoring company is required to obtain a permit on behalf of customer. • In some jurisdictions, ADT is prohibited from notifying the agency unless the customer has a valid permit. See “<i>permit required for monitoring.</i>”
Permit Required	PR	<ul style="list-style-type: none"> • Jurisdiction permit is issued to the alarm system site and may carry cost. • ADT may or may not be allowed to notify police department when permit is not on file. • Monitoring and/or installing company may be fined if ADT notifies the police department when permit does not exist. • Alarm user may be fined if ADT notifies police department when permit does not exist. • Fines for excessive false alarm activations may occur. • Suspension of alarm response may occur. • See also <i>State PD Permit Required.</i>
Permit Required For Monitoring	PRM	<ul style="list-style-type: none"> • PD prohibits ADT from notifying on burglar alarms unless the customer has a permit. • Hold up/panic/duress alarms are usually not included in this requirement. • ADT could be heavily fined if we do not provide a permit number at notification. • Monitoring terminology is “<i>no permit, do not call PD unless actual.</i>”
Permit Responsibility Customer	PRC	<ul style="list-style-type: none"> • Customer responsible for paying for and submitting permit application.
Permit Responsibility Installer	PRI	<ul style="list-style-type: none"> • Installer responsible for obtaining customer permit or registering customer.
Permit Responsibility Monitoring Company	PRM	<ul style="list-style-type: none"> • Monitoring company responsible for obtaining customer permit or registering customer.

Term	Code	Definition
Permit Responsibility TBD	PRU PRUR (RESI only) PRUC (COMM only)	<ul style="list-style-type: none"> Permit responsibility unknown – TBD
	PV	<ul style="list-style-type: none"> A call by ADT to the protected premises is required before a call to the police department can be made. This is ADT's standard procedure in all jurisdictions. Special requests to supersede this procedure are not permitted where mandated by police ordinance or municipal policy.
Registration Required	See Permit Required	<ul style="list-style-type: none"> Installing or monitoring company is required to register their customers with the jurisdiction. In some jurisdictions the customer is required to register their alarm system. In some jurisdictions, ADT is prohibited from notifying the agency unless the customer is registered.
Separate BA/FA Systems	BA/FA	<ul style="list-style-type: none"> Locations that have both burglar and fire alarm devices (excluding keypad fire buttons) must have separate control panels for the two different types of protection. "Combo Panels" are not permitted.
	PRS	<ul style="list-style-type: none"> Some smaller municipal police departments utilize the state police for alarm response after hours and on weekends etc. While the smaller municipal police department may not require a permit, a state permit may be required for their response. State police permit is issued to alarm system site and may carry cost. ADT may be fined for notifying state police when permit does not exist. Alarm user may be fined if ADT notifies state police when permit does not exist. Fines for excessive false alarm activations may occur. Suspension of alarm response may occur.
State PD Permit Required		
Verified Response	VR	<ul style="list-style-type: none"> Police will not respond unless ADT provides visual verification of an actual crime. Typically illegal for ADT to notify police department unless there is visual verification of an actual crime. Typically requires a patrol service to be dispatched to the site or may permit remote video or multiple zones as a method of verification. See <i>"contracted patrol."</i> Severe fines associated with violations. Usually Hold Up and Panic alarms are excluded from requirement. Monitoring terminology is <i>"do not call PD unless actual."</i>

Term	Code	Definition
XX Strike Policy	XX	<ul style="list-style-type: none">• Suspension of alarm response may occur if more than XX false alarms occur in a single period - typically a calendar year.• Alarm company inspection, hardware changes, and training may be required for reinstatement.• Police department administrative fee for reinstatement may be required.
